

Hello.

This is a very, very long shot, probably hopeless, but;

My Name's Philip Naylor & 46 years ago (Dec 1968) I was 12 years old & spending Christmas in Kuala Lumpur, along with my 14 year old sister, with my uncle & aunt who were seconded to the Malaysian Air Force. (My Dad was in the RAF & we were stationed at Changi, Singapore) Anyway, there were four Australian men (probably in their early 20's) who were in the apartment below us (there were only four apartments, two up & two down) They befriended me & my sister for the holiday & were a lot of fun! I only recently found out, from my aunt, that they were Aussie military (soldiers probably) on Rest & Recuperation from the Vietnamese conflict! I had no idea at the time. I would dearly love to make contact with them & find out how they got on, hoping that they all survived!! Here's the snag; I have only two names (I *said* it was a long shot!) John & Spider. They had an MG sports car with them (which we filled with empty beer cans while they were sleeping off a hangover!) I know one of them had a beard. That's it, I have no other information. So I'm trying to trace; John & or Spider who were in Kuala Lumpur Christmas 1968 on R&R along with two other mates living in a ground floor apartment & driving an MG sports car!

Any chance you could include this item in any newsletters you may publish? Or online?

Someone *may* recognise themselves or know of one of the four. I'd just really like to say "Hi" & thank them for their friendship & what they went through.

Cheers

Phil Naylor,
